

Abstract

The invention provides a novel herbal formulation used to improve the memory and in treatment of amnesia as a brain tonic. Formulation(s) comprises of oleaginous oil of *Sesamum indicum* and the alcoholic extract of *Centella asiatica*. Conventionally used as emulsion or as a soft gelatin capsule for oral dosage forms. *Sesamum indicum* used in paralysis, aphrodisiac and dysmenorrhoea. The plant of *Centella asiatica* is considered as a useful alternative and tonic in diseases of the skin, nerves and blood.
